

**STUDENT VISITS TO SCHOOL NURSE'S OFFICE**

The school nurse will notify the parents/guardians of all students who seek services from the school nurse.

Any injury or accident involving the head, bleeding, or other severe condition shall require an immediate contact with the parent/guardian or alternate emergency contact.

For all other nurse/student contacts, the school nurse will communicate with the parents or guardian by the end of the school day. If phone contact is unsuccessful, a note will be sent home with the student.

The school nurse may use professional judgment and good practice in determining the nature of the communication. The age of the student will be a factor in the nurse's consideration. On some occasions, the nurse may choose to have the student speak to the parent directly.
